

Business NH Magazine's 2008 Lean and Green Awards

Company Name: _____

Main NH Address: _____

(Additional Facility Locations): _____

Telephone: _____

E-Mail: _____

Web Address: _____

Number of Years in Business: _____

Name of Top Executive(s): _____

Name of Person Responsible for Project(s): _____

To qualify, companies and organizations must be currently active in business in the state of NH. Green practices must be in place at NH locations. Companies can enter the competition by answering any or all of the sections below. Companies do not have to participate in all sections in order to win.

1. Describe any processes your company has instituted to make your business practices more environmentally sound. Describe those processes in detail and include the cost savings or efficiencies the company is expected or has achieved by implementing them.
2. Describe a product or service your company provides that helps businesses operate in a more environmentally sound manner. Describe how the product or service functions and how companies have adopted it. Include sales or distribution information.
3. Describe any environmentally sound practices used to design or build your facility. Include details of green building practices and the cost savings or efficiencies the company also derives from them.

Please limit responses to each question to no more than 3,000 words.

Applications are due by Dec. 14, 2007. Clearly mark the application "Lean and Green Application" and please mail or drop them off to Business NH Magazine, 670 North Commercial Street, Suite 101, Manchester, NH 03101.
